

The distribution of prescription medication

Dear Madam, Sir,

The present letter is to inform you that the school's staff can, exceptionally, distribute medication prescribed for your child.

If your elementary-school child must take medication while at school, it is mandatory for you to fill out and sign the « Authorization to distribute prescription medication » form. The form and the medication must be given to the school secretary or the person appointed to receive them.

It is also mandatory for the medication to be in a container received from the pharmacy, with the label produced by the pharmacy. You are in charge of making sure that the prescription is refilled as needed.

We would like to remind you the distributing medication at school is nevertheless an exceptional measure. To avoid the use of this exceptional measure, we ask you, whenever possible, to request 12 or 24-hour doses of your child's prescription. That way, the medication can be given at home, eliminating any risks involved in transporting medication, such as leaving it behind.

Thank you for your cooperation.

The school nurse
