RE: Waste Free Lunches & Hot Meals

Dear Parents,

Dante is an environmentally friendly Brundtland certified green school and as part of our green initiatives, we will hold, once again, 'waste-free' lunches every Wednesday. All students will be able to participate.

During a Governing Board meeting in the 2010-2011 school year, we established that students ordering a hot meal from Le Doral would be able to take part in our environmental project as well. Their contribution would be to bring their own re-usable utensils and cloth napkin from home. The hot meals will still have the throw-away utensils packs but the children who bring their own, will return the throw-away utensil packs to the lunch monitor and use their own brought from home.

All the throw-away utensil packs collected will be used for class parties or donated at the end of the year.

Thank you for your participation and please encourage your children to be environmentally friendly on 'waste-free' Wednesdays.

Regards,

Ida Pisano
Principal
