

# DANTE SCHOOL IS GREEN

By 403

Dante is a green school  
We care about the earth.  
The planet is our home  
So it's of great worth.

We are a Brundtland School  
Dante is going green.  
We always compost.  
Together we're a great team.

Dante is a green school  
We promise to keep it clean  
By recycling everything recyclable.  
The earth should always be green.

Dante is a great place  
We compost and recycle.  
We care about the environment,  
Coming to school we can cycle.

Dante is a Brundtland School

We have a great dream.

To make the earth shine

Because it'll look so clean.

Many factories pollute.

If only they could see the truth

Of how much they hurt the planet.

So stop to protect our youth!

We've become a Brundtland School.

When we reuse, we're in a good mood.

Waste free lunches on Wednesdays

Dante School kids don't waste food.

The earth should always be clean

No littering or cutting trees.

We should save the earth no matter what.

Don't pollute the environment, please!

Dante respects our planet

We are against pollution.

Please use metal water bottles.

Dante always has a solution.

We respect the environment,  
We always work as a team.  
Do not hurt Mother Nature.  
Our school will always stay green.

We care about our planet  
We want to keep it clean.  
So recycle, compost, and don't pollute  
Like the kids on Dante's green team.

We should use eco-friendly products  
We shouldn't make pollution.  
We should save the earth  
By trying to find more solutions.
